Christmas 2019

Anno 2020
Year 2020

YOU
that
you say
LORD if in
this Christmas
I make a nice tree
inside my heart, and
there attack, instead of gifts,
the names of all my friends: i
distant friends and close friends,
those old and new, the ones I see every
day no and those I rarely see, those I remember
always and sometimes forgotten ones, constant ones
and the alternate ones, those that I unintentionally made
suffer and those who, unintentionally, made me suffer, those
who I know deeply and those I hardly know, those I do they have
little and those to whom I owe a lot, my simple friends and mine
important friends, the names of all those who have passed into my life.

**A tree with roots very deep, why
their names do not come out
never from my heart; a tree from
the branches a lot great, because
the new ones names from all over
the world world join the already
existing, a tree with a very pleasant
shade so that our friendship, let it be
a moment of rest during the struggles of life.**

**May this Christmas (2019) bring joy and serenity to our hearts.
Even if the storm is raging outside, that the quiet reigns in our soul, do not
give up and make sure that 2020 and future years can give us unique gift and
immense happiness.**
