We are very thankful for your next gift for our school and our students, the magazines BRIDGE and GATE. They are full of interesting articles and topics for work at school or at home. Our students can spend their learning time more effectively and we can make teaching and learning English much more interesting.

Let us say „Thank you very much indeed!“ and we wish you all the good things you have done come back to you at least twice.

Yours faithfully,

Ing. Andrea Iovdijová
Director of school
